

Connected Controls

CONTROL YOUR COMFORT AND EFFICIENCY
FROM WHEREVER LIFE TAKES YOU.

American Standard[®]
HEATING & AIR CONDITIONING

READ ONLY

It's like taking your home with you.

Connect your home to American Standard Heating & Air Conditioning and Nexia™ Home Intelligence and get energy management control from wherever you are, right at your fingertips.

Ideal comfort and control.

With American Standard's innovative Platinum ZV, Platinum XV, Gold XV and Silver XM Controls, you can set your home to your ideal temperature from most web-enabled devices, like your smartphone.

Silver XM Control

With upgradable software, humidity sensor, filter service and maintenance reminder alerts, this control allows you to manage your home comfort from anywhere with the most up-to-date tools available.

- Nexia compatible*
- 4.3" black and white LCD touchscreen
- Create up to four daily heating and cooling schedules
- Dehumidification setting
- Adjustable continuous fan control with variable-speed indoor unit
- Upgradable software
- Screen lock out and guest lock out
- One button Energy Savings Mode (ESM)

Gold XV Control

Reduce your heating and cooling system's energy consumption with any internet-enabled smartphone, tablet or computer** from anywhere in the world, and thanks to the built-in Nexia™ Bridge, you can remotely control your home too!

- Built-in Nexia Bridge
- 4.3" color touchscreen
- Create up to six daily heating and cooling schedules
- Indoor relative humidity display
- One touch installation set up with six preset configurations
- Upgradable software
- Wi-Fi or Ethernet connection
- 5-day weather forecast & weather radar**

Every control includes Nexia Remote Climate Access!

With Nexia™ Home Intelligence, homeowners can remotely control their home's temperature to suit their lifestyle and reduce their energy consumption while away. All so you can connect with your home and family, even when you're not at home.

* Nexia Bridge required

** Requires high speed router and connection to Nexia™ Home Intelligence

Come home to your ideal home environment with Nexia™ Home Intelligence.

- Easily change the temperature before you arrive or if you forgot to set it before you left.
- Reduce costs by setting up a schedule or putting your comfort system into an energy savings mode when you're away.
- Enjoy the convenience and security of text and email alerts reminding you it's time to change the filter.

Platinum XV Control

Control your AccuLink™ communicating system's energy consumption from anywhere in the world with any internet-enabled smartphone, tablet or computer.** Remotely control your home too, thanks to the built-in Nexia Bridge.

- Built-in Nexia Bridge
- 4.3" color touchscreen
- Create up to six daily heating and cooling schedules
- Indoor relative humidity display
- One touch installation set up with six preset configurations
- Upgradable software
- Wi-Fi or Ethernet connection
- 5-day weather forecast & weather radar**
- Compatible with AccuLink™ Communicating and Variable Speed systems

Platinum ZV Control

The Platinum ZV will change your perception of controls forever, giving you a home management tool for remotely controlling the comfort of your home. It's easily accessible from a smartphone, tablet or computer, which makes adjusting the temperature for your home and family's comfort a breeze.

- Nexia compatible
- 7" high definition color touchscreen
- Create up to six daily heating and cooling schedules
- Built-in humidity sensor
- Air quality management tools
- Upgradable software
- Wi-Fi connection
- Up-to-the-minute weather station
- Compatible with AccuLink™ Communicating and Variable Speed systems
- Digital photo frame
- Maintenance and filter service reminder alerts

Our dealers will put you in your comfort zone.

Your independent American Standard Heating & Air Conditioning dealer is a highly trained professional with years of experience who'll work with you every step of the way in choosing the system that's right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you'll be.

What you need to get connected with Nexia™ Home Intelligence.

- An active broadband internet connection and router with at least one available port.
- A computer with internet access and a supported internet browser.
- A valid email address.
- A compatible cell phone or smartphone with an internet data plan and a SMS (text message) plan for remote features.

Adding accessories to your Nexia™ Home Intelligence system requires a monthly subscription for remote access via most web-enabled smartphones and computers.

A connected home that can grow with your lifestyle.

Whenever you want to grow your home's connections, Nexia™ Home Intelligence can offer you a way. Ask your Independent American Standard Heating & Air Conditioning dealer for details, or visit nexiahome.com.
