		<b>Silver 16 Multi-Speed Low Profile Heat Pump</b> Up to 16.0 SEER2 / 8.1 HSPF2

Discover the next generation of home comfort with low profile heat pumps from American Standard® — engineered to be quiet, compact, and stylish while providing efficient, reliable, and environmentally friendly heating and cooling. Using advanced refrigerant technology, these systems seamlessly transfer heat to deliver year-round comfort—warming your home in winter and cooling it in summer by simply reversing the refrigerant flow. Whether you're installing a new unit or replacing an existing one, our heat pumps offer superior performance and hassle-free convenience, making them the ideal solution for maintaining a comfortable home in any season.

### Flexible Installation Options

Designed to fit where traditional units can't, low profile heat pumps can be installed under windows, decks, or mounted along your home's exterior—even in areas with limited clearance.

### A Smart Replacement for AC & Furnace

Thinking about upgrading your home's comfort? Low profile heat pumps can often replace your current air conditioner or furnace.

### Compact Design, Powerful Results

You get the same dependable performance as traditional heat pumps—packed into a smaller, less visually intrusive unit that blends seamlessly with your home's exterior.

### Trusted Longevity

With routine maintenance, low profile heat pumps can provide 10 to 15 years of reliable comfort, comparable to standard heat pumps.

## COLD CLIMATE HEAT Pumps

When winter temperatures plunge, you need a heating solution that's up to the challenge. American Standard's cold climate heat pumps are designed to deliver dependable comfort right when you need it most. Unlike traditional systems, these advanced heat pumps use innovative inverter and variable speed compressor technology to maintain efficiency and reliability—even in the harshest conditions.

American Standard's full lineup of cold climate-friendly heat pumps provides energy-efficient heating that keeps your home warm and comfortable while helping you manage your utility bills. With the ability to perform effectively in very low temperatures, these systems meet the growing demand for electric heating solutions and offer peace of mind no matter how cold it gets outside.

## AWARD-WINNING EXCELLENCE.

### Top Tier Owner Satisfaction for Gas Furnaces

"National Product Testing and Research Magazine"

In 2019 and 2021 Summer Surveys of 36,348 gas furnaces, owned by members who purchased a new gas furnace [unit] between 2005 and 2021, American Standard gas furnaces were rated Top Tier in Owner Satisfaction.

### Top Tier Owner Satisfaction for Heat Pumps

"National Product Testing and Research Magazine"

In 2019 and 2021 Summer Surveys of 13,458 heat pumps, owned by members who purchased a new heat pump [unit] between 2005 and 2021, American Standard heat pumps were rated Top Tier in Owner Satisfaction.

### Top Tier Reliability for Heat Pumps

"National Product Testing and Research Magazine"

In 2019 and 2021 Summer Surveys of 13,458 heat pumps, owned by members who purchased a new heat pump [unit] between 2005 and 2021, American Standard heat pumps were rated Top Tier in Reliability.

### Top Tier Owner Satisfaction for Central Air Conditioning

"National Product Testing and Research Magazine"

In a survey based on the proportion of members who are extremely likely to recommend their central air conditioning system to friends and family found American Standard Central Air Conditioning Systems' to be Top Tier in 2018 and 2020 Summer Surveys of 23,997 central air conditioning systems, owned by members who installed a new system between 2005-2020.

## WE OBSESS OVER IT SO YOU DON'T.

For over a hundred years, we've made some of the most awarded, well-engineered heating and air conditioning equipment, and earned a reputation for doing things ...right. And through it all, we've followed a pretty simple idea: "A Higher Standard" isn't just how we build our products. It's how we build our relationships with the customers who depend on us every single day.

# A CLOSER LOOK

## Silver 16 Multi-Speed Low Profile Cold Climate Heat Pump

### Compact Design

Featuring a sleek, compact design and side discharge configuration, these units offer flexible installation in tight spaces while maintaining exceptional performance.

### Energy Efficiency

Engineered with advanced technology, these units deliver optimal heating and cooling while minimizing energy consumption.

### Quiet Operation

Designed with quiet operation in mind, these units minimize noise to help maintain a peaceful, comfortable home environment.

### Durable Construction

Built to last, our heat pumps feature robust construction and high-quality materials. With weather-resistant components and a sturdy design, you can trust that your system will withstand the elements and provide reliable performance for years to come.

### Smart Technology

Integrated smart technology enables easy connectivity and control, allowing seamless adjustment and performance monitoring with compatible American Standard thermostats.

### Versatile Performance

Offering year-round, eco-friendly heating and cooling, these all-electric systems help reduce your carbon footprint and increase energy efficiency—potentially lowering utility bills. For added flexibility, pairing with a gas furnace in a dual fuel setup ensures optimal comfort in any weather.

Certain American Standard Low Profile Heat Pump models are engineered to work specifically with designated air handlers or coils, while others offer flexible pairing options. For details about available combinations for each model, please contact your local American Standard dealer.

<sup>1</sup> Registered Limited Warranty terms are available when you register within 60 days of installation. You can register online at [americanstandardair.com](http://americanstandardair.com) or by phone at 855-260-2975, otherwise American Standard Heating & Air Conditioning's Base Limited Warranty terms will apply. Base Limited Warranty information on specific products can be found on [americanstandardair.com](http://americanstandardair.com). Ask your dealer for full warranty information at time of purchase. Warranties are for residential and multi-family use only, some exclusions may apply. Product Registration and Registration Transfer exclusions vary in the US from state to state and in Canada from province to province. To determine if there are specific exclusions for your state or province check your local laws.

### COMFORTABLE. RELIABLE. EFFICIENT.

Optimize the comfort and efficiency of your home with the American Standard Home smart comfort system. The American Standard Home mobile app gives you remote access to your HVAC system through your connected American Standard smart thermostat. Adjust your temperature, set your schedule, and view your HVAC usage from anywhere.

American Standard Home connects to your American Standard HVAC system to provide you with remote control and diagnostics. To view additional integrations and subscriptions, visit our Knowledge Base at [AmericanStandardAir.com/home-subscription](http://AmericanStandardAir.com/home-subscription).

## WHY IS INDOOR AIR QUALITY IMPORTANT?

We spend 90% of our time indoors, and 70% of that is in our home<sup>1</sup> where the air can be up to 5X poorer quality than the air outside<sup>2</sup>. So, AccuClean® utilizes patented technology to deliver cleaner air to the whole home by removing up to 99.98% of airborne particles<sup>3</sup> that pass through the re-usable filter, including 99.9% of the Influenza A (H1N1) virus<sup>4</sup>. The AccuClean® Whole Home Air Cleaner, when used in accordance with manufacturer's directions, is effective at removing a surrogate for the virus that causes COVID-19. Effective removal rate based on independent testing results using MS-2 bacteriophage, a bacteria representative of virus-sized particles like SARS-CoV-2 that causes COVID-19. This level of filtration makes it up to 100X more effective than a standard 1" filter<sup>5</sup>.

### Certified by the Asthma and Allergy Foundation of America.

With more than 65 million Americans suffering from asthma and allergies, this certification mark guides consumers in identifying products more suitable for people with asthma and allergies. The **asthma & allergy friendly**® Certification Mark is awarded only to those products that are scientifically proven to reduce exposure to asthma and allergy triggers.

American Standard AccuClean® is verified zero ozone producing so you can breathe easier knowing your air is free from harmful byproducts.<sup>6</sup>

<sup>1</sup> The National Human Activity Pattern Survey (2001)

<sup>2</sup> U.S. Environmental Protection Agency. EPA/600/6-87/002a. (1987)

<sup>3</sup> Based on 3rd party testing of particle removal efficiency down to 0.3 microns (2005)

<sup>4</sup> As reported by airmid healthgroup in ASCR092142v2 (2015)

<sup>5</sup> Assuming <1% removal rate of 0.3 – 10 micron particles

<sup>6</sup> Verified Zero Ozone per UL 2998, Intertek Certificate #: ZOZ-90113-2023a
