

Manufacturer’s Tax Credit Certificate – Geothermal Products

The Geothermal products listed below are eligible for an energy tax credit as defined by IRS Bulletin no. 2009-19 dated May 11, 2009, if they are installed between June 1, 2011 and December 31, 2016. The credit amounts you may receive are subject to IRS regulations. Please consult a tax professional for advice on tax preparation.

Other Important Homeowner Information

There are other important requirements and limitations such as the qualified energy property must be installed in the homeowner’s primary residence. American Standard recommends that homeowners consult a tax professional to ensure they meet all requirements. The Internal Revenue Service is responsible for implementing and administering the tax credits.

Under penalty of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts presented are true, correct, and complete.
