IT FEELS BETTER EVERY DAY OF THE YEAR WITH A HIGHER STANDARD OF COMFORT.
A SMART IDEA NOW AND EVERY DAY OF THE YEAR.

Platinum Series
Heat Pumps
Our most efficient and powerful heat pumps. Enjoy the highest level of comfort and maximum efficiency with features like Duration™ variable speed compressors, Spine Fin™ coils and copper tube coils.*

Gold Series
Heat Pumps
Efficient in any weather, Gold Series heat pumps feature hardworking components like Spine Fin™ coils and two-stage Duration™ compressors that keep the comfort coming.

Silver Series
Heat Pumps
Built to perform and built to last, Silver Series single-stage heat pumps provide serious value and uphold American Standard’s commitment to quality.

* Copper tube coils refer to the Platinum 19 Heat Pump.
Cool, crisp air in the summer. Gentle, welcoming heat in the winter. Reliability and efficiency every day of the year. American Standard Heating and Air Conditioning heat pumps are your solution to a more comfortable home, and more efficient energy consumption. Choose from our ultimate Platinum Series, our hardworking and efficient Gold Series, or the reliable comfort of our Silver Series. Each one delivers more than you’re expecting, because you’ve moved up to a higher standard of comfort.

Believe it or not, over half of the energy usage in your home goes towards heating and cooling.* An efficient American Standard Heating & Air Conditioning heat pump can have an appreciable impact on your energy consumption, while also helping to lower your carbon footprint.

RELIABILITY, THROUGH AND THROUGH.

American Standard’s reputation for reliability and performance is earned every day, with every heat pump we manufacture. From our premium materials to our careful construction and thorough testing, every American Standard heat pump is built to last. Take a look inside our Platinum series below and you’ll find quality and smart thinking throughout. You can also use our comparison chart on the next page to find the American Standard product that’s right for you.

1. **AccuLink™** communicating control board
   Maintains consistent comfort and efficiency by powering the compressor and controlling communication between all components of the system.

2. **Duration™** variable speed compressor
   Automatically makes constant, minute adjustments to avoid temperature swings in your home and maintain consistent comfort and optimal efficiency.

3. **Compressor sound insulator**
   Reduces operating noise for a quieter home environment.

4. **All-aluminum Spine Fin™** coil
   An exclusive design makes it extremely efficient at transferring heat, and highly resistant to corrosion.

5. **Durabase™** basepan
   Built to resist cracks, rust and corrosion.

6. **Variable-speed fan motor**
   Adjusts speed based on cooling and heating requirements for high efficiency and quieter operation.

7. **Heavy-duty steel louvered panels**
   Protect the coil from dirt and damage while still providing substantial airflow.

8. **Appliance-grade finish**
   Durable powder-painted louvers resist rust and corrosion, eliminate sharp edges and provide years of lasting protection.

9. **SermaGuard™** rust-resistant screws
   For corrosion resistance and longer life SermaGuard™ screws are Zinc-coated.

*An American Standard Platinum 1050 or 850 control is required for all Platinum 20 or Platinum 18 heat pumps.*

*Registered Limited Warranty terms are available when you register within 60 days of installation. You can register online at americanstandardair.com or by phone at 800-554-8005, otherwise American Standard Heating & Air Conditioning’s Base Limited Warranty terms will apply. Base Limited Warranty information on specific products can be found on americanstandardair.com.

**Platinum 20/Platinum 18/Platinum 19 vary speed in 1/10 of 1% increments.

---

1. **SermaGuard™ rust-resistant screws**
   - For corrosion resistance and longer life.
   - SermaGuard screws are Zinc-coated.

2. **Integrated Fan System**
   - Unique leading edge swept blade design improves airflow, enhances performance and reduces sound levels.

3. **Super Durable Powder-Paint Finish**
   - Virtually indestructible for maximum protection against corrosion and rust.

4. **Duration™ variable speed compressor**
   - Automatically makes constant, minute adjustments to avoid temperature swings in your home and maintain consistent comfort and optimal efficiency.

5. **Single panel control compartment**
   - Allows easy access to controls and reduces operating sound.

6. **Condenser coil**
   - Refrigeration grade copper tubes and enhanced aluminum fin surface maximizes heat transfer.

7. **Defrost control**
   - Provides enhanced comfort and maximizes efficiency by defrosting only when required to maintain indoor comfort.

8. **Smaller footprint**
   - For zero lot line, and smaller constrained areas such as under decks means this unit will fit where traditional sized units cannot.
In a matched system, everything works together to do more.

A matched system from American Standard Heating & Air Conditioning is a system that combines components that have been designed to work with one another. The result is a perfectly balanced system tuned for efficiency and substantial comfort, producing air unlike anything you’ve felt before.

**Heat Pump**
Provides cooling in the summer, then reverses in winter to bring warmth into your home.

**Furnace**
Warms your home with oil or natural gas during the winter, while circulating cooled air in the summer.

**Air Handler**
Circulates heated or cooled air throughout your home quietly and efficiently.

**Coils**
Attached to your furnace or within your air handler, it works with your outdoor unit to provide air that is cool, comfortable and conditioned.

**Comfort Control**
With programmable or non-programmable options available, American Standard controls are smart, clear and intuitive.

**AccuClean™**
A new definition of whole-home air filtration, AccuClean removes up to an incredible 99.98% of particles down to .1 micron from the filtered air.

The Asthma and Allergy Foundation of America (AAFA) and Allergy Standards Limited (ASL) has announced that the AccuClean™ whole home air cleaner from American Standard, has earned the asthma & allergy friendly® Certification.
Humidifier
Carefully controls moisture levels in your air during dry weather to reduce static electricity and help preserve furniture and valuables.

Energy Recovery Ventilator
Provides fresh outdoor air and removes stale indoor air, all while transferring heat and moisture for comfort and efficiency.

AccuLink™ Zoning
Provides custom comfort right where it needs to be.

Nexia™
Remote climate access through Nexia™ is included with select American Standard controls. Nexia allows you to adjust heating and cooling in your home, and monitor and control energy use, all from wherever you happen to be, using your smart phone or web-enabled tablet or computer.

AccuClean™ works harder so you can breathe easier.
Want 99.98% clean air? Then choose the home air filtration system that gives 110% – American Standard’s revolutionary AccuClean™. By removing up to 99.98% of unwanted allergens down to .1 micron from the filtered air, AccuClean is 100 times more effective than a standard 1” throwaway filter. Simply put, AccuClean works harder, so you and your family can breathe easier.

Ratings of cubic feet per minute of clean air delivered for a typical 3-ton heating and cooling system: the higher the value, the more effective the air cleaner.

Clean air delivery rate (efficiency times airflow rate) is recognized by the Federal Trade Commission (FTC) and Environmental Protection Agency (EPA) as a fair and objective measure of various air cleaner technologies.
Designed for comfort. Built to last.

For more than a century, families have trusted American Standard Heating & Air Conditioning to keep their homes comfortable. Today, our home comfort systems continue to push the boundaries of efficiency and performance, while still delivering on our proud history of quality, durability and substantial value. Welcome your family home to a higher standard of comfort from American Standard Heating & Air Conditioning.

Our dealers will put you in your comfort zone.

Your independent American Standard Heating & Air Conditioning dealer is a highly trained professional with years of experience who’ll work with you every step of the way in choosing the system that’s right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you’ll be.

Run your home from wherever life takes you.

Nexia™ allows you to manage your home remotely using most web-enabled mobile devices.* With just the touch of a button, you can unlock a door or turn on lights for security, or monitor and adjust your heating and cooling from a distance to save energy. Simply put, Nexia™ gives you and your family all the promises of home automation in the most simple and accessible way. All so you can connect with your home, even when you’re not at home. Ask your American Standard Heating & Air Conditioning dealer for details.

Nexia Remote Climate Access is included with the purchase of a connected control. Adding accessories to your Nexia system requires a monthly subscription for remote access via most web-enabled smartphones and computers.
